Dear Jiayi Weng,

Your application for graduate study in Computer Science and Engineering at the University of California San Diego has been carefully reviewed. We regret to inform you that you have not been selected for admission.

A number of factors are considered in evaluating each application. Please be aware that UC San Diego receives a large number of applications and many excellent candidates could not be offered admission. Unfortunately, we are only able to extend offers to a limited number of qualified applicants.

If you have questions about the decision you may contact the program to which you applied directly. Program contact information can be found at https://apply.grad.ucsd.edu/departments. Please note that some departments are unable to respond to such requests due to the large volume of applications received.

Thank you for your interest in the University of California San Diego. I wish you the best in all your endeavors.

Sincerely,

James Antony

Dean of the Graduate Division
University of California San Diego
